SPRING SHOWDOWN BEEFMASTER SALE

May 9, 2026 • 12 Noon

Live Oak County Fairgrounds • Three Rivers, Texas

***Selling Bred Heifers, Open Heifers, Three-In-Ones, Pairs and Bulls
FEATURING***

***An Outstanding Group of Bred Heifers from Live Oak's Top Breeders
An Awesome Group of Breeding Age Open Heifers from the Live Oak Heifer Development Program***

The format will include the judging/grading with a panel of judges of all cattle and the selection of the champion for the following groups: Bred Heifers, Development Program Open Heifers, Open Heifers, Three-In-Ones/Pairs, and Bulls. The Spring Showdown for the overall Grand Champion and Reserve Champion Female will then be selected.

Welcome to the 2026 Spring Showdown Sale. We are pleased to present an outstanding offering of young Beefmaster cattle. The first 18 heifers listed in the catalog are all selected from the Live Oak Heifer Development Program conducted at Landair, Inc. in Beeville, Texas. As a service to our members, this program is designed where LOBBA members can grow and develop young heifers to reach full breeding soundness and marketability.

The mission of this program is to grow and condition young heifers on a silage based ration, obtaining scan and performance data needed by the current market and preparing them to meet the needs of purebred breeders. These heifers are listed in age order and will be judged and sale order determined on Friday at the sale site. The Champion in this group will compete for the overall Grand Champion and Reserve Champion Female in the sale. The development of the heifers is complete and they are ready to breed to the bull of your choice. As a result, we proudly present these 18 fall born heifers for your consideration.

Important Dates Live Oak Beefmaster Breeders Association

- 5/8/26--Final grading and selection of Grand Champion Female
- 5/9/26-Spring Showdown Sale
- 5/18/26 to 5/26/26--Deliver Spring born heifers to Landair for fall sale

**When it's a labor
of love, it isn't "work."**

At Capital Farm Credit, we do things differently. We're a cooperative - that means we're owned by the same ranchers, farmers and agribusinesses we serve. Whether you're looking for operating capital, a beginning rancher loan or need help navigating a rural land purchase, your goals are our goals. And our patronage dividend program means we share our profits and put money back in your pocket.

Together we're better.
Partnership that really pays.

2G Tidal Reserve is the epitome of a true power female in the making. This heifer stands on ideal bone, is extremely level throughout her lines, and possesses great muscle and rib shape. Couple this with being a daughter of High Tide and Dusty's Reserve, an incredibly consistent producing female in our program, and you have a no-miss package. As icing on the cake, she will sell 3 1/2 months safe to our newest HOMOZYGOUS POLLED herd sire, NG Gold Glove, C11194675, the HOMOZYGOUS POLLED, featured bull in the 2025 NexGen Cattle Co. Spring Classic. Don't miss out on this exciting opportunity to own one of the very first NG Gold Glove calves hitting the ground this fall.

It's hard not to fall in love with 2G Jessie's Wave. Since the day this blue-eyed, POLLED showstopper was born, we knew she was going to be special. She not only represents a near-perfect blend of femininity, angularity and pure class, but compliments it with a pedigree to match. As a direct daughter of High Tide and Jessie's Girl, a young female on our ranch whose first two heifers sold have been sale standouts averaging a very impressive \$14,500, you have one more shot at that top end female to propel your program to the next level. As if that wasn't enough, she will sell 3 1/2 months safe to our newest HOMOZYGOUS POLLED herd sire, NG Gold Glove, C 1194675, the \$34,000 featured bull in the 2025 NexGen Cattle Co. Spring Classic. Don't hesitate on one of the very first opportunities to at a NG Gold Glove calf; this one with a good shot at being HOMO POLLED!

This solid red bull is a smooth and thick son from one of our Colonel Tom daughters. This A.I. calf, sired by Frenzel 3112, demonstrates exceptional EPDs, featuring an adjusted ribeye area (REA) of 10.57 and an intramuscular fat (IMF) score of 2.33. His genetics include Catalyst and Rojo Bueno. His \$T is 108.67 and \$M is 20.52. He is a very easy going bull with a clean underline and plenty of bone who should become a strong herd bull. Lifetime Member. Whole Herd Reporting.

"El Tosco" meaning Big Brute in Spanish, this fellow has amazed us. Since the day he was born he grew out every way he could, big, massive yet docile and gentle. We cull most of our bull calves except the exceptional ones. Pedigree is strong top and bottom, CF Adrenaline on the top side and Riptide on the bottom side. Open up his extended pedigree is you want to be impressed. Scurred bull but we dehorned him for looks. Bulls like this are one of a kind!

TERMS AND CONDITIONS

BIDDING: Each animal will be sold to the highest bidder without reserve.

BIDDING DISPUTE: The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

CASH SALE: All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, Section 10 of the BBU Bylaws.

BUYER'S RISK AT THE TIME OF SALE: The risk of loss and injury of each animal passes to the buyer as soon as it is sold.

CERTIFICATES OF REGISTRATION: A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within **45 days** following the later of either the date of sale or upon the receipt of full payment.

HEALTH GUARANTEES: Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

ANNOUNCEMENTS: If there is any inconsistency in information in terms of the sales materials (e.g. sale catalog, supplemental sheets, sale day announcements, 1) sale day announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

IDENTIFICATION RESPONSIBILITIES: 1) Prior to the sale, **the seller must ensure** that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

ARTIFICIAL INSEMINATION (AI) CERTIFICATES AND EMBRYO TRANSFER (ET) BILLS OF SALE: AI certificates and ET bills of sale will be the responsibility of the seller.

CONFORMANCE WITH REGISTRATION GUARANTEES: 1) The seller guarantees that all sold animals are registered in accordance with the rules of BBU and 2) The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of BBU.

OFFICIAL BBU INFORMATION: All existing available official BBU information, including calf source, service sire and/or potential service sires (registration numbers) and performance data must be included in the final sales catalog.

PEDIGREE, PERFORMANCE AND GENETIC INFORMATION GUARANTEES: **The seller guarantees** to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date. The absence in any sales materials of a specific designation on the pedigree of an animal does not establish that the animal in question is not a carrier of such genetic defect.

BREEDING GUARANTEES:

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to gross negligence by or willful misconduct on the part of the buyer.

2) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within sixty (60) days prior to sale date. Results of the BSE will be reported on a fully completed official form and attached to the health papers required for the sale.

Unless otherwise agreed by the buyer and seller, the seller makes no guarantees with respect to the ability to collect and/or freeze semen. If a Buyer wants a guarantee with the intention of collecting and/or freezing semen, the Buyer and Seller must mutually agree before the sale of the bull. Agreements may include full refund or partial refund of the sale price and any other related expenses if the ability to collect and/or freeze cannot be attained. If there are any questions, the Buyer should call the owner, sales management, or any other sales representative.

Regardless of any Seller/Buyer type agreements, all other terms of the sale apply. After purchase of the Bull, full payment is required before the bull can be collected and before any other testing is made on the bull, including any required or selected tests or treatments which are needed for interstate or international movement.

2) Todos de 18 meses de edad o mayores son garantizados por el vendedor de haber pasado una Evaluación de Sanidad para Toros Reproductores (BSE) y haber sido certificados como reproductores potenciales por un veterinario acreditado dentro de los (60) días previos a la subasta. Los Resultados del (BSE) serán reportados completamente en un formato oficial y añadidos a los certificados de salud requeridos para la subasta.

De no haber un común acuerdo entre el vendedor y el comprador, el vendedor no garantiza la habilidad del toro a ser colectado y que su semen pase la prueba de congelamiento. Si el comprador desea una garantía con la intención de coleccionar y congelar semen del toro, el comprador y el vendedor deberán mutuamente estar de acuerdo previo a la venta del toro. Los acuerdos pueden incluir un reembolso total o parcial del precio final de la venta y otros gastos relacionados si la habilidad de coleccionar y congelar semen no se pueda obtener. En caso de dudas el comprador deberá contactar al vendedor, gerente de la subasta o representantes.

Independientemente de los acuerdos entre el Vendedor y el Comprador, todos los términos de la subasta aplican. Al concluir la venta del toro, la liquidación total del animal es requerida previamente a cualquier intento de colección del mismo, incluyendo tratamientos o pruebas requeridas para el traslado interestatal o internacional.

3) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed

full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

DISCLOSURE OR RETENTION OF GENETIC MATERIALS: If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:

- 1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.
- 2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.
- 3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
- 4) If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be in writing to the seller within 180 days of the sale of the animal in question.
- 5) If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller within 180 days of the birth of the calf.
- 6) If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. Seller is responsible for all transportation expenses.
- 7) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.
- 8) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.
- 9) If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.
- 10) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

GENETIC DEFECTS AND FACTORS: REQUIRED DISCLOSURES RELATING TO CERTAIN TEST RESULTS OR POTENTIAL CARRIER STATUS OF AN ANIMAL:

- 1) In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by BBU) as a carrier of any genetic defect or genetic factor recognized by BBU.
- 2) The seller guarantees that a bred female will not produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.

MISCELLANEOUS:

- 1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.
- 2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Suggested Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Sales Terms and Conditions.
- 3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.
- 4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.
- 5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
